

## Keep an “eye on your transaction”

I’m excited to introduce to you a unique *web-based* mortgage loan *communication tool*, designed to keep you updated and in the center of every referral, step by step, along the way.

### How can I do that?

By utilizing the features of the “Eye On My Loan” program; I have the ability to facilitate real-time communication among every participant involved in the loan process:

- The client
- The selling agent
- The listing agent
- The title and escrow officer

### How does it work?

It’s super simple; in fact there is nothing for you to do....simply log into our website with the username and password that is provided to you and there you will find:

- Loan status report
- Participants contact information
- Transaction details

As your business partner I am committed to a higher level of accountability and the ultimate quality service. I appreciate every opportunity.
